

PM ENTERPRISE

Linear IC Trainer

PME-3105

PM Enterprise - PME-3105 kit is designed to fulfill requirement of performing experiments of Linear electronics in a single platform. Practical experience on this board carries great educative value for Students.

Features

- Self-contained and easy to operate
- Built in Power Supply.
- Two OP-Amp IC.
- 2mm Inter Connection
- Detailed Manual

Scope of Learning

- To study Inverting summing amplifier
- To study Non-inverting summing amplifier
- To study Differential amplifier
- To study Adder
- To study Subtractor

Specifications

- Built-in IC Regulated D.C. Power Supply.
- Continuously variable D.C. Power Supply.
- Two OP-Amp IC.
- Onboard Transistors, Diodes, Zener diodes, Resistors, Capacitors, LED and one lamp.
- Mains ON/OFF switch, fuse and Neon Indicator are provided.
- Inter connections : 2 mm sockets
- Power Supply : 230 V, $\pm 10\%$, 50 / 60 Hz

Included Accessories with Kit:

- Practical Manual
- Connecting Patch Cords
- Soft Copy of Manual on CD
